New Business

Review document from Loureiro

Chief Sitar commented that Loureiro is looking for environmental site study for Sanborn Road, he emailed Jeannie Forrester to see if they could get a copy of the report, they have from the police station.

The report was reviewed and discussion included proper evaluation of site and more borings to be done, Park St structural issues, space needs and location.

Dennis commented that he feels the 2019 committee results were based solely on money and the fact that the District owns the Park St property. Lisa commented that she was on that committee. The concern was we needed to leave Center Street and Park Street was available knowing we will need another station in the future. Discussion ensued regarding a building that will pass, space needs, and one station versus two.

Committee Charge

Chief stated that there was a lot of discussion but never a formal written directive, will be discussed at next Commissioners Meeting.

Press Release / Project Update

Will Discuss Press release at next meeting when they have more information.

Dennis commented on why other committees have failed, noting that they need to make sure both towns are happy and not wasting committee's time on individual agendas.

Extensive discussion regarding call locations and volume and the best way to serve the community.
